PROFESSIONAL SUMMARY

Motivated undergraduate Software Engineering student with hands-on experience in developing software solutions through academic and team-based projects. Strong in problem-solving and communication, with the ability to collaborate effectively in team environments. A quick learner, passionate about building efficient, scalable systems and eager to apply skills in real-world environments.

PROJECT EXPERIENCE

• Smart Campus Operation Hub – Team Leader

Designed and developed a full-stack web platform to streamline university campus operations, enabling efficient management of resources such as lecture halls, laboratories, and equipment. The system supports real-time booking, maintenance reporting, role-based access control, and automated notifications. Built using Spring Boot for backend services and React for the frontend, with a focus on scalability, security, and operational efficiency.

Tech Stack: MongoDB, Spring Boot, React.js, REST APIs, JWT Authentication

Github :- [Link](#)

• Camping Gear Rental And Sales Platform

Designed and developed a full-stack Camping Gear Rental and Sales Platform to manage equipment rentals and product sales efficiently. The system enables users to browse, rent, and purchase camping gear through a user-friendly interface. Implemented features such as product listings, user management, and order handling to ensure a smooth and scalable e-commerce experience.

Tech Stack: MongoDB, Express.js, React.js, Node.js (MERN Stack)

• Smart Student Health Career Support System – Team Leader

Designed and developed an integrated campus-focused digital platform to support students in healthcare, delivery services, and career guidance. The system includes user and identity management, doctor appointment and prescription handling, smart delivery management, and an AI-powered chatbot for academic and career support. Implemented role-based dashboards, secure authentication, and automated notification systems to enhance user experience and improve campus service efficiency.

Tech Stack: MongoDB, Express.js, React.js, Node.js (MERN Stack)

EDUCATION

Sri Lanka Institute of Information Technology (SLIIT), Malabe, Sri Lanka

Undergraduate, BSc (Hons) in Information Technology specializing in Information Technology. [2023-2027],GPA: 2.94

G.C.E. Advanced Level -Physical Science Stream 2022(Results released 2023)

CERTIFICATIONS

- Full Stack Web Development
- Certifications in MongoDB and Schema Design
- AWS Cloud Technical Essentials
- Introduction to Cloud Computing
- Hands-on Introduction to Linux Commands and Shell Scripting

TECHNICAL SKILLS

- **Programming Languages:** Java, Python, Kotlin, PHP, C, C++
- **Web & Application Development:** HTML, CSS, Tailwind CSS, JavaScript, React, MERN Stack
- **Databases:** MySQL, MongoDB, SQL
- **Mobile Development:** Android (Kotlin)
- **Cloud & DevOps:** AWS, Docker
- **Version Control & Collaboration:** Git, GitHub
- **Tools & IDEs:** Android Studio, Eclipse IDE, VS Code

SOFT SKILLS

- Leadership & Team Management
- Time Management & Challenge-Driven Mindset
- Communication Skills
- Teamwork & Proactivity
- Adaptability & Problem-Solving
